COLLEGE OF ALLIED HEALTH STUDENT COMPUTING INFORMATION

A copy of the College's student computing policies and procedures is available online. The document defines policies, procedures and practices regarding computing and computer usage in the College of Allied Health and addresses the following areas: hardware equipment, software, special equipment, purchases and upgrades, maintenance and care, virus protection, security, network access, training and support, systems administration and disaster recovery. By following these directives, each user reduces the likelihood of data or property loss and contributes to a safe and productive computing environment.

Please pay special attention to these sections. A link to the entire handbook is also provided below.
