

# BIOCHEMISTRY & MOLECULAR BIOLOGY DENTISTRY (BIOCD)

---

**BIOCD 7194. Biochemistry. 4 Credit Hours.**

Prerequisites: None May be repeated; maximum credit 8 hours. A survey of biochemistry for students in the health-related professions covering the structure and function of biomolecules (proteins, nucleic acids, lipids and carbohydrates), metabolism, molecular genetics, membrane organization, transmembrane signaling, and additional topics of specific interest.

**Course Type:** Lecture

**BIOCD 8990. Special Studies. 0-6 Credit Hours.**

May be repeated with change of subject matter. Topics of special nature or of unusual interest to the individual student.

**Course Type:** Lecture
