

HEALTHCARE ADMINISTRATION, CERTIFICATE

About

The Graduate Certificate in Healthcare Administration is an option for current graduate students in the OU Master of Business Administration program as well as for anyone who has earned an MBA degree from any institution. The graduate certificate program develops a deeper understanding of practices and policies within the healthcare sector for those who wish to use their MBA degree in a healthcare setting.

MBA students who pursue the certificate program will join with the Master of Healthcare Administration (MHA) students in learning the precepts of healthcare administration. The crosscurriculum partnership of this certificate enables the Price College of Business graduate students to utilize pre-existing courses to meet the demands set by the growing healthcare industry.

Cost

It is the student's responsibility to ensure they are enrolled in the prescribed courses and to pay tuition and fees at the time designated by the Bursar's Office. Details regarding tuition/fee charges and collection are available from the Bursar's Office.

Admissions
